TECHNICAL TIP

Citrus Burst will increase the ability of your pre-spray to cut through the toughest soils – and do it quickly. Many cleaners find themselves re-spraying the bad traffic lanes a second time to break down heavy soils. Save the extra cost of a second application by doing it with Citrus Burst boosted prespray the first time. Just one or two ounces per gallon gives you a big boost and saves the cost of putting down more pre-spray a second time. Time and labor is very expensive. Cut down on both by adding Citrus Burst to your pre-spray.
