

VIVID

Stone and Tile Cleaner/Neutral Rinse

Effective and Safe for Fine Stone Surfaces

VIVID™

For Professional Cleaning of natural stone such as marble, granite, limestone, travertine, slate, sandstone, and flagstone. It is also perfect for maintenance cleaning of ceramic and porcelain tile and grout.

RTU ph 7.0 - 7.5

Contents: One U.S. Gallon (3.79 Litres)

- A perfect neutral cleaner and rinse for stone, tile, and other hard surfaces.
- Contains no water conditioning or chelating agents which can harm natural stone surfaces.
- Ideal for maintenance cleaning
- Can be used as prespray or to neutralize alkaline or acid prespray.
- Perfect cleaner for stone countertops.

DIRECTIONS

Read entire label before using. Use only as directed. Be sure surfaces to be cleaned are swept or vacuumed to remove loose debris before cleaning. Always pretest surface with cleaning solution for colorfastness prior to cleaning.

1. For normal soiling, mix two ounces of solution with gallon of warm or hot water (1:64) into a professional spray applicator. For heavy soiling, mix 4 four ounces of solution with a gallon of warm or hot water (1:32) into a professional spray applicator. For application through a Hydro-Force Inline Injection Sprayer, mix 1 quart of solution with a gallon of water in sprayer bottle. Use normal 1 to 8 tip for application.
2. Apply mixed solution with sprayer evenly and liberally across surface to be cleaned. If preferred, you can apply mixed solution with a damp mop, sponge, or other appropriate professional equipment. If using a mop for solution application and surface cleaning, change your mop water often to make sure that soil is not redeposited.
3. For best results, agitate and extract cleaning solution using warm or hot water and a rotary agitation surface cleaner such as a Hydro-Force SX-15 or Hydro-Force SX-7. On sensitive surfaces such as soft marble, make sure the floor has been thoroughly vacuumed or swept to remove pebbles, sand or other abrasive material prior to cleaning. For especially sensitive finishes, use the Hydro-Force Gekko tool with brush head instead for extraction, or simply mop to rinse with clean warm or hot water.

4. Accelerate drying with airmover like the OmniPro Omnidry.
5. To protect stone surfaces from future stains and spills, consider application of Spinerge Solidrock Premium Stone and Grout Sealer, if needed.

For use as a neutral cleaning rinse: Dilute 1 oz./gallon with hot water for portable units. Mix concentrate in a truckmount unit at one quart per 5 gallons of water. Meter as usual. Damp Mopping: One half oz./gallon hot water for routine/daily cleaning. Automatic Scrubbing machines One half oz./gal for routine or daily cleaning.

INGREDIENT DISCLOSURE

Water, Surfactant Blend NJTS#36041932, Isopropanol, Perfluoroalkyl C6-12 Phosphonic Acid.

INSTRUCCIONES

Lea toda la etiqueta antes de usarse. Use solo como se indica. Asegúrese que el área que se va a limpiar este barrida o aspirada. Haga una prueba preliminar de la compatibilidad de este producto, en un área poco visible.

1. Para manchas normales mezcle 2oz de solución con un galón de agua caliente en un rociador profesional. Para manchas difíciles mezcle 4 oz de solución con un galón de agua caliente en un rociador profesional. Para la aplicación con un rociador de Hydro-Force Inline Injection Sprayer, mezcle 1 cuarto de solución con un galón de agua en la botella. Utilice la punta normal de 1 a 8 para la aplicación.
2. Aplique la solución mezclada con un rociador en toda la superficie, de preferencia usando un trapeador, esponja u otro equipo especial. Si usan un trapeador para aplicar la solución de preferencia cambie el agua constantemente.
3. Para mejores resultados use una máquina rotatoria como la Hydro-Force SX-15 o Hydro-Force SX-7. En áreas sensibles como el mármol. Asegúrese que el área a limpiar este barrida o aspirada. Para terminados sensibles use Hydro-Force Gekko con cabeza de cepillo en vez de una extracción o un trapeador para enjuagar con agua limpia y caliente.

4. Acelere el secado con una máquina o Omnipro Omnidry.
5. Para proteger las superficies de piedra de futuras manchas, considere la aplicación de Spinerge Solidrock Premium Stone and Grout Sealer, o Spinerge Duraprotect Impregnating Solvent Stone and Grout Sealer si lo necesita.

Para uso como un limpiador y enjuagador neutral: Diluya 1oz de galón con agua caliente para unidades portables. Mezcle concentrado en una truck mount a un cuarto por 5 galones de agua. Para trapear: mitad de onza/galón de agua caliente para la rutina o limpieza diaria. Para máquinas automáticas de tallado, una mitad onza/galón para la rutina o limpieza diaria.

IMPORTANT NOTICE TO PURCHASER: Seller's and manufacturer's liability for any and all losses or damages resulting from any cause whatsoever shall in no event exceed the purchase price of this product, with respect to which losses or damages are claimed. Before using, the user shall determine the suitability of this product for its intended use, and user assumes all risk and liability whatsoever in connection therewith.
