Bridgepoint Systems Odor Sealer Urine & More eliminates strong odors on contact and seals surfaces to prevent stains from leeching into the top coat. Suitable for use on untreated wood, sheetrock, masonry, concrete, and other porous hard surfaces.

Uses 3 Proven Methods to Eliminate Odors

1. Odor encapsulate eliminates odors like urine and smoke on contact
2. Durable, water-based coating traps odors in the substrate
3. Pleasant fragrance neutralizes malodors like urine and smoke

Other Benefits:

- Water-based solution is easily rinsed from equipment after use
- Solvent free formulation
- One-coat application
- Durable and adheres to many types of surfaces
- No Prop 65 ingredients

DIRECTIONS

1. Clean surface with appropriate cleaner based on surface requirements.
2. Thoroughly deodorize areas with direct spray or wet fogging of Hydrocide or other odor encapsulate.

3. Wait until surface is dry and apply Odor Sealer to seal in remaining odors and prevent stains from wicking to surface. Test in a small area to determine proper bonding. Mix and apply like paint using brush, roller or airless sprayer. Two coats may be necessary on heavily stained or porous surfaces.
4. Once Odor Sealer is dry, surface may be painted, or carpet and tile installed.

Coverage: 100 (most porous) to 400 (least porous) sq. ft. per gallon.
