

Bonnet/Brush Encapsulate Cleaner

EncapuClean with Maxim

Complete soil encapsulator for brush and bonnet cleaning. A polymer barrier entraps soil for easy removal and retards future soiling.

Contents: Five U.S. Gallons (18.9 Litres)

CC08PL

ENCAPUCLEAN WITH MAXIM PROVIDES
• Fast Drying • Deep Cleaning • Low VOC • Highly Concentrated • Soil Retarding • Stain Resistance • and a Neutral pH

Based on the newest technology in polymer surfactant cleaning, Encapuclean with Maxim cleans and absorbs the worst soil. The soil is absorbed into a bonnet or suspended for later vacuuming when used with brush method. Remaining residue retards resoiling and adds stain resistance. This makes vacuuming and spot cleaning more effective. Encapuclean with Maxim is the foundation for an excellent maintenance system for carpet. Hot water extraction is recommended on a semi-annual or annual basis.

INSTRUCTIONS

Dilute 1 to 16 (8 oz. per gallon hot water). To increase the effectiveness of the Maxim soil and stain resistance and for extreme cleaning, dilute 1 to 8 (16 oz. per gallon hot water). If any stiffness is noted on carpet after drying, vacuuming will normally remove it.

Application for brush and vacuum: Spray solution consistently over a section of carpet and brush in with rotary and carpet brush or counter rotating brush machine. It also can be applied with gravity feed tanks. Let dry overnight and extract with vacuum. For heavy soil, consider bonneting while carpet is damp.

Application for bonnet cleaning: Spray mixture lightly over an absorbent bonnet and then spray evenly over a section of the floor to be cleaned. Place bonnet under rotary machine and move over area until clean. Change bonnets frequently and place in plastic bag to keep moist until laundered. For use with medium to heavy soil.

CAUTION

Keep out of reach of children. May cause skin and eye irritation, avoid contact with skin and eyes. Wear eye protection and gloves when mixing and using. Wash thoroughly after handling.

First Aid: In case of skin or eye contact, immediately flush with plenty of water. Get medical attention if irritation occurs.

Contents: Water (Cas #7732-18-5), Proprietary Surfactant/Polymer, Sodium Xylene Sulfonate (Cas# 1300-72-7), Glycol Ether DPNB (Cas# 29911-28-2), Proprietary Fluorochemical Blend

Bonnet/Brush Encapsulate Cleaner

INSTRUCCIONES:

Diluya en una proporción de 1:16 (8 onzas por galón de agua caliente). Para aumentar la resistencia del Maxim a la suciedad y a las manchas, o para realizar una limpieza profunda, diluya en una proporción de 1:8 (16 onzas por galón de agua caliente). Si las fibras de la alfombra se quedan tiesas después de secarla, esto normalmente se elimina al limpiarla con la aspiradora.

Aplicación con cepillo y aspiradora:

Rocíe la solución sobre una sección de la alfombra y haga que penetre usando un cepillo rotativo para alfombras o con una máquina de cepillo contrarrotativa. También se puede aplicar con tanques de alimentación por gravitación. Deje que se seque toda la noche y extraígalo con una aspiradora. Si la alfombra está muy sucia, considere el uso de un disco de limpieza (bonnet) mientras la alfombra está húmeda.

Aplicación con disco de limpieza (bonnet):

Rocíe la solución sobre un disco de limpieza (bonnet) absorbente, luego rocíelo uniformemente sobre la sección del piso que va a limpiar. Coloque el disco bajo la máquina rotativa y páselo sobre el área hasta que esté limpia. Cambie de disco frecuentemente y colóquelos en una bolsa de plástico para que se mantengan húmedos hasta que se laven. Debe utilizarse si la alfombra está medianamente o muy sucia.

ENCAPUCLEAN WITH MAXIM

May cause skin and eye irritation. Avoid contact with skin and eyes. In case of contact, immediately flush with plenty of water, seek medical advice if irritation persists.

Susceptible d'irriter la peau et les yeux. Évitez tout contact avec la peau et les yeux. S'il y a contact, lavez-vous immédiatement à la grande eau. Consultez un médecin si l'irritation se fait persistante.
