- 11 RTU pH

X = Primary Use ✓ = Secondary Use

- High concentrate pre-spray for carpets.
- This is a free rinsing cleaner especially designed for the suspension and removal of heavy soils, grease, and soot build up.
- Especially effective on heavily soiled Olefin.
- Contains special emulsifiers that keep it fully active.
- Excellent for removal of filter soil under drapes and doors.

DIRECTIONS: To be used as a traffic lane prespray for heavily soiled carpets. Product should be extracted after use. Traffic Slam is not designed for use on 5th Generation stain-resist carpets. Traffic Slam is designed for use in the Hydro-Force sprayer and other types of pump or electric sprayers.

For use with the Hydro-Force Sprayer: Dilute 1 part Traffic Slam to 3 parts water in the 5 qt. container. The proper ready to use dilution is then achieved by the Hydro-Force, or pour concentrate into 5 qt. container without dilution and set Hydro-Force Revolution® knob at 1:32.

For use with pump or electric sprayers: Dilute 4 oz. Traffic Slam to 1 gal. hot water (1:32). For exceptionally heavy soil, dilute 8 oz. per gal. (1:16). Spray traffic lanes and spotted areas until damp. Extract with your normal process.

OLEFIN CARPET: Dilute 1 oz. Boost-All per gallon of warm water, for pump sprayers, or 4 oz. Boost-All in 5 qt. container (for the Hydro-Force™) to 3 qts. warm water. Mix thoroughly and add Traffic Slam as directed above. Spray carpet. Allow to dwell for 15 minutes. Extract using solution of Bridgepoint Fab-Set.

CONTAINS: Water (CAS# 7722-84-1); Proprietary surfactant blend, TKPP (CAS# 7320-34-5); Sodium Metasilicate (CAS# 6834-92-0)

TRAFFIC SLAM es un rociado preliminar altamente concentrado para alfombras. Este producto no es tóxico y se enjuaga con facilidad, y ha sido diseñado específicamente para suspender y quitar las acumulaciones de suciedad, grasa y hollín. Traffic Slam es especialmente efectivo para alfombra Olefin con acumulaciones de suciedad. Traffic Slam contiene emulsionadores especiales que extienden su período de actividad (siempre que se mantenga mojada la alfombra), hasta media hora antes de su extracción. Es excelente para la eliminación de suciedad que se filtra debajo de las cortinas y las puertas.

INSTRUCCIONES: Se debe utilizar como rociado preliminar en las áreas más transitadas de las alfombras extremadamente sucias. el producto debe extraerse después de su uso. Traffic Slam no está destinado para uso en alfombras de quinta generación resistentes a manchas. Traffic Slam está diseñado para su uso en el rociador Hydro-Force y otros rociadores de bomba.

Para su uso en el rociador Hydro-Force: En el recipiente de 5 cuartos de galón, diluya 1 medida de Traffic Slam con 3 medidas de agua. Se obtiene la dilución correcta automáticamente al usar el Hydro-Force. Si lo prefiere, puede verter el producto en el Hydro-Force sin diluirlo, y fije la perilla del Hydro-Force Revolution a 1:32.

Para su uso en rociadores de bomba o eléctricos: Diluya 1 medida de Traffic Slam con 32 medidas de agua caliente (media taza por galón, o 31 ml por litro). Rocíe las áreas transitadas y las áreas manchadas hasta que estén mojadas. Extráigalo usando el proceso normal.

ALFOMBRA OLEFIN: Diluya una onza Boost-All con 1 galón de agua tibia para un rociador de bomba, ó 4

onzas Boost-All en un recipiente de 5 cuartos (para el Hydro-Force) con 3 cuartos agua tibia. Mésclelo bien y añada Traffic Slam como se dijo anteriormente. Rocíe la alfombra. Déjelo reposar durante 15 minutos. Extraigalo usando una solución de Bridgepoint Fab-Set.
