IMPORTANT NOTICE TO PURCHASER: Seller's and manufacturer's liability for any and all losses or damages resulting from any cause whatsoever shall in no event exceed the purchase price of this product, with respect to which losses or damages are

claimed. Before using, the user shall determine the suitability of this product for its intended use, and user assumes all risk and liability whatsoever in connection therewith. Go to www.bridgepoint.com/sds for additional safety, regulatory and liability information.

FLEX IS...

Strong: Flex will wrestle even the toughest soils off the carpet! Heavy greases, oils, and other tough soils are no match for Flex. Unequaled in the industry, Flex's surfactants, alkaline builders, and boosters come together to provide you with the toughest cleaner available.

Fast: Flex goes to work the second it comes in contact with soil in the carpet. High performance surfactants and boosters quickly suspend and emulsify even the most stubborn soils.

Economical: Even when purchased in small quantities, Flex offers you savings *and* power! Purchase Flex in larger quantities to save even more.

To be used as a traffic lane prespray on heavily soiled carpets. Should be extracted after use. Flex is not designed to be used on 5th generation fibers. Flex is designed for use in the Hydro-Force sprayer, electric sprayers, and other types of pump sprayers.

DIRECTIONS

For extreme cleaning: Dilute 1 part Flex to 8 parts hot water (16 oz. Flex to 1 gallon hot water). Add Flex directly to the Hydro-

Force container and the 1 to 8 dilution is automatically achieved. You can also add 1 ounce Citrus Solv to each gallon of ready to use solution or 8 ounces of Citrus Solv to the 5 quart Hydro-Force container.

For normal cleaning: Dilute 1 part Flex to 16 parts hot water (8 oz. Flex to 1 gallon hot water). Mix 1 part Flex with one part water to the Hydro-Force container and the 1 to 16 dilution is automatically achieved.

Contains: Water (CAS # 7732-18-5), Proprietary blend of non-hazardous surfactants & hydrotopes, STPP (CAS # 7758-29-4), Ethylene Glycol Monobutyl Ether (CAS # 111-76-2), Diethylene Glycol Monobutyl Ether (CAS # 112-34-5), Sodium Hydroxide (CAS # 1310-73-2).
