losses or damages are claimed. Before using, user shall determine the suitability of this product for the intended use, and user assumes all risk and liability whatsoever in connection therewith. The manufacturer and seller make no representation or warranty, including merchantability or any other kind, expressed or implied. The foregoing may not be altered except by written agreement by officers of the manufacturer.

AROMAFRESH™

Aromafresh Deodorizer has been specially formulated to counteract and neutralize organic malodors through a multi-phased attack on organic odor producing materials. It works effectively on a wide variety of common and specialized odor problems, including airborne malodors, skunk musk, urine odors, smoke odors, bacterial and fungal odors, stale odors, vomit, and many other organic and protein odors. The multi-phase attack first physically bonds to the odor, surrounds it with a odor barrier, and then leaves a fresh fragrance in its place. This product positively neutralizes odors and does not just "mask" them.

DIRECTIONS

General usage considerations

Aromafresh Deodorizer is a concentrated product that you will dilute according to directions before using. It can be used effectively in a variety of application mechanisms. Regardless of the malodor you are treating there are several steps that you can take to assist in treating the area.

- Locate and eliminate all sources of the odor
- Flush and physically remove or extract as much of the contamination as possible before deodorizing treatment.
- You must apply a volume of deodorizing solution equal to or greater than the volume of odor causing material.
- Saturate by spraying areas of contamination with your aroma fresh deodorizer to recreate the conditions that caused the odor.

For General Purpose Deodorizing:

Mix 1 part solution with 4 parts water in a spray applicator. Saturate spray all areas of contamination.

For urine contamination:

Mix one part solution with four parts water. Saturate spray or pour mixed solution onto contaminated area. Consider application with an injection system deep into the carpet

cushion and subfloor. For best results, allow to dwell for 15 minutes before extraction with a sub-surface extraction tool such as the Spot Lifter® or Water Claw®.

As a cleaning additive:

For portable extractors – mix 2 ounces of solution with mixed cleaning solution in fresh water solution tank.

For truck mounted extractors – mix one quart of solution with five gallons of mixed extraction rinse detergent. Aromafresh is compatible with alkaline and neutral extraction detergents and rinses.

For low moisture encapsulation cleaning – mix four ounces of solution with a gallon of already mixed encapsulation cleaning solution.

PRECAUTIONS & FIRST AID:

Keep out of reach of children. Use only with adequate ventilation. May cause skin and eye irritation. Avoid contact with eyes prolonged contact with skin. Do not ingest.

In case of eye contact, flush with plenty of water. Get medical attention if irritation occurs. In case of skin contact, wash with soap and water. If swallowed, do not induce vomiting. Drink plenty of water and obtain medical help. If inhaled, move to fresh air, get medical attention if irritation occurs. See Material Safety Data Sheets (msds) for additional safety information.

CONTENTS: Water (C.A.S.#7732-18-5), Proprietary odor neutralizer/polymer, Isopropyl Alcohol (C.A.S.# 67-63-0)

INSTRUCCIONES:

Consideraciones Generales De Uso

Aromafresh Deodorizer es un producto concentrado en el que tu vas a diluir de acuerdo a las instrucciones. Este producto puede ser usado en una variedad de aplicaciones. Sea como sea el mal olor que estas tratando hay muchos

metodos que tu puedes tomar para tratar un area Localiza y elimina todos los malos olores Saca y fisicamente remueve o extrae lo mas posible la contaminacion antes de aromatizar Debes de aplicar un volumen de la solucion aromatizadora igual o mayor que el volumen del mal olor Satura rociando bastante en las areas contaminadas con el aroma fresh deodorizer para eliminar lo que causa el mal olor.

Para Usarlo Como Aromatizante En General:

Mescle 1 parte de la solucion con 4 partes de agua en un rociador. Aplique en todas las areas contaminadas (nosotros recomendamos 1:6 o 1:32 para hydrocide, 1:8 o 1:16 seria recomendable diluirlo en un porcentaje basado al quimico concentrado)

Para Contaminacion De Orines:

Mescle una parte de la solucion con 4 partes de agua. Rocie o ponga directamente en el area contaminada. Apliquelo de preferencia con un sistema de inyeccion profundo en la alfombra y el subsuelo. Para mejores resultados, dejelo por 15 minutos antes de una extraccion con el sub-surface extraction tales como el Spot Lifter o Water Clow

Usando Como Un Limpiador Aditivo:

Para extractores portables- mescle 2oz de solucion con la solucion limpiadora mezclada en el tanque con agua limpia.

Para Extractores Truck Mount-mescle un cuarto de solucion con 5 galones de Extraction Rinse Detergent.

Aromafresh es compatible con Alkaline o Neutral Extraction Detergents y Rinse

Para Una Baja Limpieza De Encapsulacion- mescle 4oz de solucion con un galon ya mesclado de encapsulation cleaning solution

PRECAUCIONES Y PRIMEROS AUXILIOS:

No se deje al alcance de los niños. Uselo solo en areas ventiladas. Puede causar irritacion en los ojos y piel. Evite el contacto prolongado en la piel. No lo ingiera. En caso de contacto en los ojos lavese con mucha agua y obtenga ayuda medica. En caso de contacto en la piel, lavese con agua y jabon. Ysi lo ingiere, no se induzca el vomito. Tome mucha agua y obtenga ayuda medica. Ysi se inala salgase a una area ventilada y obtenga ayuda medica. Vease Material Safety Data Sheets (msds) para informacion adicional.

AROMAFRESH

May cause skin and eye irritation. Avoid contact with skin and eyes. In case of contact, immediately flush with plenty of water, seek medical advice if irritation persists.

Susceptible d'irriter la peau et les yeux. Evitez tout contact avec la peau et les yeux. S'il y a contact, lavez-vous immédiatement à la grande eau. Consultez un médecin si l'irritation se fait persistante.
