

Seals Porous Stone, Tile & Grout Without Affecting Slip Resistance

X Stone X Grout ✓ Absorbent Tile
 X = Primary Use ✓ = Secondary Use

by **HF**
HYDRO-FORCE™

RTU ph - 8.5

A highly effective sealer for non-sealed grout and cement. Repels and resists oil-based and water-based stains and soil.

Solvent-Based Stone & Grout Sealer For Professional Use Only

SHAKE THOROUGHLY BEFORE EACH USE!

DIRECTIONS FOR USE:

Pre-Application Procedures

WARNING: Avoid exposure to vapors. Use in a well-ventilated area or with an approved respirator device. Ready-to-use - Do not dilute. Shake thoroughly before use. Read entire label before using. Use only as directed. Always test in a small inconspicuous area with a 24-hour cure time to determine ease of application and desired results. Make sure surface is clean, dry and free of waxes and coatings. Surface temperature should be between 50°F and 80°F. Keep children and pets out of the area until foot traffic resumes. Mask any surfaces not intended to be treated.

Coverage: For treatment of stone, 250 - 800 sq. ft. per gallon for the most common stone floors. Coverage can be as high as 1200 to 1500 square feet per gallon for granite floors if

Contents: One U.S. Quart (.94 Litres)

the grout lines are narrow and the tiles are large. Variables include type of stone, porosity of stone, etc...

Application Procedures

1. Ensure area is well-ventilated during application and until the surface is dry. A NIOSH-approved respirator with an organic vapor cartridge is recommended.
2. Follow respirator manufacturer's instructions for use. Mask any surfaces not intended to be treated.
3. If you are sealing grout and the grout is new, it should cure for 48 hours before application of sealer. When applying on existing grout, make sure it has been cleaned, rinsed well, and is dry. Apply using the "GroutStick" applicator. Grout should be damp with the Solvent-Based Grout Sealer. Avoid pooling. If the "GroutStick" is not available, a thin bead should be applied directly from the container and then spread, as necessary, with a small brush.
4. For stone floors and other surfaces, liberally apply an even coat using a paint pad, roller, brush or pump-up pressure sprayer. DO NOT USE A POWER SPRAYER. See method of application for more information. Do not thin before using.
5. Allow sealer to penetrate surface for 15-30 minutes. Non-porous stone may require even more time for sealer to penetrate. During this time, distribute excess sealer over entire area to ensure even penetration. Thoroughly wipe entire surface with dry cloth to remove excess
6. A second coat may be needed for more porous surfaces and should be applied one hour after initial application, as directed in steps 3-5.
7. If excess sealer was not completely wiped off and a residue appears, wipe entire surface with a towel dampened with sealer. Use a white nylon scrubbing pad to loosen residue and follow with white absorbent towel to remove.

Post Application Precautions

Floor is typically walkable in 3 to 4 hours, ready for use after 8 to 12 hours, and completely cured in 24 hours. These times will be shorter if only grout was sealed. After 6 to 18 months, reapplication may be necessary, depending upon the traffic level, maintenance procedures and the type of surface sealed.

IMPORTANT NOTICE TO PURCHASER: Seller's and manufacturer's liability for any and all losses or damages resulting from any cause whatsoever shall in no event exceed the purchase price of this product, with respect to which losses or damages are claimed. Before using, the user shall determine the suitability of this product for its intended use, and user assumes all risk and liability whatsoever in connection therewith. DANGER!

Keep out of reach of children.

HAZARD STATEMENTS:

Flammable liquid and vapor. May be fatal if swallowed and enters airways. Causes skin irritation. Causes eye irritation. May cause respiratory irritation. May cause drowsiness or dizziness.

PRECAUTIONARY STATEMENTS:

Wash face, hands and any exposed skin thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/ protective clothing/ eye protection/ face protection. IF ON SKIN: Wash with plenty of soap and water. IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a POISON CENTER or doctor/ physician if you feel unwell. If skin irritation occurs: Get medical advice/ attention. If eye irritation persists: Get medical advice/ attention. Remove/ Take off immediately all contaminated clothing. Wash contaminated clothing before reuse.

PELIGRO!

Mantener fuera del alcance de los niños.

INDICACIONES DE PELIGRO:

Líquido y vapores inflamables. Puede ser mortal en caso de ingestión y penetración en las vías respiratorias. Provoca irritación cutánea. Provoca irritación ocular. Puede irritar las vías respiratorias. Puede provocar somnolencia o vértigo.

CONSEJOS DE PRUDENCIA:

Lavarse la cara, las manos y la piel concienzudamente tras la manipulación. Utilizar únicamente en exteriores o en un lugar bien ventilado. Usar guantes/ ropa de protección/ equipo de protección para los ojos/ la cara. EN CASO DE CONTACTO CON LA PIEL: Lavar con agua y jabón abundantes. EN CASO DE INHALACIÓN: Transportar la víctima al aire libre y mantenerla en reposo en una posición que le facilite la respiración. EN CASO DE CONTACTO CON LOS OJOS: Aclarar cuidadosamente con agua durante varios minutos. Quitar las lentes de contacto, si lleva

y resulta fácil. Seguir aclarando. Llamar un CENTRO DE TOXICOLOGIA o a un médico si la persona se encuentra mal. En caso de irritación cutánea: consultar a un médico. Si la irritación ocular persiste, consultar a un médico. Quitar inmediatamente las prendas contaminadas. Lavar las prendas contaminadas antes de volver a usarlas.

DANGER!

Tenir hors de portée des enfants.

MENTIONS DE DANGER:

Liquide et vapeurs inflammables. Peut être mortel en cas d'ingestion et de pénétration dans les voies respiratoires. Provoque une irritation cutanée. Provoque une irritation des yeux. Peut irriter les voies respiratoires. Peut provoquer somnolence ou vertiges.

CONSEILS DE PRUDENCE:

Se laver le visage, les mains et toute surface de peau exposée soigneusement après manipulation. Utiliser seulement en plein air ou dans un endroit bien ventilé. Porter des gants de protection/ des vêtements de protection/ un équipement de protection des yeux/ du visage. EN CAS DE CONTACT AVEC LA PEAU: laver abondamment à l'eau et au savon. EN CAS D'INHALATION: Transporter la victime à l'extérieur et la maintenir au repos dans une position où elle peut confortablement respirer. EN CAS DE CONTACT AVEC LES YEUX: rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Appeler un CENTRE ANTIPOISON ou un médecin en cas de malaise. En cas d'irritation cutanée: Consulter un médecin. Si l'irritation oculaire persiste: Consulter un médecin. Enlever immédiatement les vêtements contaminés. Laver les vêtements contaminés avant réutilisation.
