Green Balance All Purpose Hard Surface Cleaner is a professional strength hard surface cleaner whose heavy duty formula is designed to effectively remove a wide array of problematic soiling. From the simplest soiling and soap scum to a build up of grease and oil based soiling, its synergistic combination of environmentally preferred agents will dissolve, emulsify and remove them. Green Balance All Purpose Hard Surface Cleaner has been formulated based upon the best presently available information supplied by the United States Environmental Protection Agency DFE program for environmentally preferred cleaning products. It can be used on almost all types of hard surface floors – tile, grout, vct, concrete, vinyl linoleum, laminate, wood, and more. It is also perfect for almost any horizontal surface you need cleaned, from the dirtiest shower stall to appliances and walls. Its unique formula contains no added fragrances, making it the perfect cleaner for the chemical and allergy sensitive person. It is the one perfect cleaner for almost all of your daily cleaning requirements.

DIRECTIONS:

UNIVERSAL PRECAUTIONS

- Always pretest for colorfastness and/or texture change in an inconspicuous area of the surface you are going to clean prior to application.

FLOOR CLEANING – TILE, GROUT, VCT, CONCRETE, GARAGE FLOORS

- For best results with extreme soiling conditions, mix one part chemical with 4 parts water. For normal soiling, mix one part chemical with 8 parts water. For

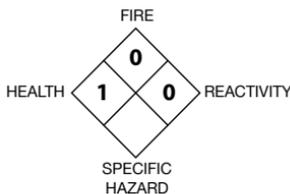

- application with Hydro-Force Revolution Injection Sprayer set meter at 4:1 or 8:1 and fill 5 qt. container with Green Balance Hard Surface Cleaner to use Hydroforce injection sprayer with yellow tip.
- Apply with electric, battery powered, pump-up pressure, or injection sprayer with an even, overlapping light misting across the area to be cleaned.
- For best results, allow mixed solution to dwell on surface for 5-10 minutes before extraction.
- Extract from surface with Hydroforce SX-12 or other rotary powered extraction tool. If no rotary powered extraction tool is available, mop area with clean, hot water.

WALL CLEANING, COUNTERTOPS, SINKS, APPLIANCES, BATHROOM TILE SURFACES, FAUCETS, FIXTURES

- Mix one part chemical with 32 parts water (4 ounces of solution to one gallon of water). Adjust dilution according to difficulty of job. For application with Hydro-Force Revolution Injection Sprayer, mix 1 part solution with one part water in five quart container and set meter at 16:1. Add 48 oz and fill 5 qt. container with water to use Hydroforce injection sprayer with yellow tip.
- Remove loose soil or soot with dry cloth or dry cleaning sponge. Apply mixed solution with electric, battery powered, pump-up pressure, or injection sprayer with an even, overlapping light misting across the area to be cleaned.
- For best results, allow mixed solution to dwell on surface for 5-10 minutes before extraction.
- Wipe off and rinse with wet cloth if necessary.

WOOD SURFACES, BLINDS, PLASTIC, LAMINATE FLOORS, VENETIAN BLINDS, PLASTIC, AND VINYL

- Mix one part chemical with 32 parts water (4 ounces of solution to one gallon of water). Adjust dilution according to difficulty of job. For application with Hydro-Force Revolution Injection Sprayer, mix 1 part solution with one part water in five quart container and set meter at 16:1. Add 48 oz and fill 5 qt. container with water to use Hydroforce injection sprayer with yellow tip.

2.

Apply mixed solution with electric, battery powered, pump-up pressure, or injection sprayer with an even, overlapping light misting across the area to be cleaned.

- For best results, allow mixed solution to dwell on surface for 5-10 minutes before extraction.
- Wipe off and rinse with wet cloth if necessary.

READY TO USE PH:

7.0-7.5

CONTENTS:

Water (CAS.#7732-18-5); Proprietary Blend of Nonionic and Anionic Surfactants/polymers, Sodium Citrate (CAS #68-04-02)
