

## Oil, Ink, & Grease Remover

BRIDGEPOINT  
SYSTEMS

- X Residential Carpet
- X Commercial Carpet
- X Upholstery
- X Rugs

RTU pH: N/A

X = Primary Use ✓ = Secondary Use

### DESCRIPTION:

OINK is a multi-purpose solvent formulated for use on carpet and fabric that is designed to remove ballpoint pen, stamp pad, duplicating, marking, writing, felt tip and colored art inks. It also works effectively on latex, spray, and other types of paints. It can also be used to remove shoe polish, cosmetics and adhesives. It has been specially formulated to be in compliance with the latest emission regulations.

• *Versatile*— OINK is both water soluble and solvent soluble. Most often stains can be removed by applying OINK, water and extracting. Where solvents are more appropriate, OINK can be flushed with SOLVENT CLEAN. Last traces of some color from problematic oil based stains may need to be treated with STAINZONE.

Contents: 14 lq. oz. (0.41 Litres)

- *Effective*— Ink stains that were previously thought to be permanent can now be removed. Used in combination with AVENGE as the rinsing agent, OINK has removed heavy deposits of ink on upholstery where other products failed.
- *Free-Rinsing*— OINK will rinse free from the fabric with either water or volatile solvent. This means no re-soiling problems.

### DIRECTIONS:

1. Always pretest for colorfastness and fiber distortion in an inconspicuous area. Do not apply to color sensitive fibers, leather, satin, silk, suede, velvet, non-colorfast wool, or any fabric that can be damaged by water based solutions. Do not use on acetate as fabric will dissolve on contact.
2. Remove as much of the spilled material as possible prior to solution application. If particle or powder spill, dry vacuum. If liquid spill, blot with colorfast, absorbent towel. If sticky material, use spotting spatula or dull knife to remove as much of the material as possible.
3. Apply a small amount of spotting solution to towel and blot the stain. Agitate into spot with spotting spatula, tamp area with spotting brush, or blot spot with colorfast absorbent towel. Repeat this process until the great majority of colored pigment is removed from the fabric. Apply

CS08PT

- solution lightly, directly to the remaining stain. Agitate lightly. Allow solution to dwell for 2-3 minutes.
4. Where appropriate, add a small amount of water or Avenge Neutral Spotter, agitate and extract with water. Repeat this process until stain is removed. If fabric is not water compatible, use a volatile solvent (SOLVENT CLEAN) to flush OINK and the stain from the fabric.
  5. Note: When using multi-purpose solvents such as OINK, always consider the possible negative effects on backing materials such as latex, foam cushion, and other stabilizing material.

**CONTENTS:** Glycol Ether DB (CAS # 112-34-5), Acetone (CAS # 67-64-1), Proprietary Non-hazardous dye dispersant, Isopropyl Alcohol (CAS # 67-63-0), Orange Oil (CAS # 5989-27-5)

### SAFETY INFORMATION AND FIRST AID

**CAUTION: FLAMMABLE**— Keep away from heat or flame. May cause skin irritation. Use of rubber gloves is recommended. Avoid contact with eyes. In case of contact with eyes, flush with water for at least 15 minutes. Call a physician. If swallowed, do not induce vomiting. Call a physician. Use with adequate ventilation. Avoid prolonged breathing of vapors.

**IMPORTANT NOTICE TO PURCHASER:** Seller's and manufacturer's liability for any and all losses or damages resulting from any cause whatsoever shall in no event exceed the purchase price of this product, with respect to which losses or damages are claimed. Before using, the user shall determine the suitability of this product for its intended use, and user assumes all risk and liability whatsoever in connection therewith.
