## INSTRUCCIONES

Aditivo para limpieza Como aumentador de potencia para las áreas transitadas de las alfombras, añada 1 ó 2 onzas por galón de solución preparada (de 8 a 16 ml por litro—1:128 a 1:64). Para la tapicería, utilice 2

onzas por galón (16 ml por litro, 1:64) para un rociado preliminar. Para Hydro-Force añada 8 onzas (237 ml) por cada 5 cuartos de galón del concentrado (50 ml por litro—1:20).

No sature o respaldo de la alfombra mojada con Citrus Burst ya que puede causar hinchazón temporal.

## TECHNICAL TIP

Citrus Burst will increase the ability of your pre-spray to cut through the toughest soils – and do it quickly. Many cleaners find themselves re-spraying the bad traffic lanes a second time to break down heavy soils. Save the extra cost of a second application by doing it with Citrus Burst boosted prespray the first time. Just one or two ounces per gallon gives you a big boost and saves the cost of putting down more pre-spray a second time. Time and labor is very expensive. Cut down on both by adding Citrus Burst to your pre-spray.
