Paint - Spray Paint, Latex
Shoe Polish & Cosmetics
Marker - Permanent, Felt

★ = Recommended ✓ = Acceptable

LIFT - INK CARPET SPOTTER

Safely removes the toughest spots, spills and stains. Easy to use, very effective.

One U.S. Pint (0.47 Litres)

RTU pH
N / A

For Professional Use Only

- Versatile multi-purpose solvent for variety of spots
- Free rinsing with either water or solvent
- Works synergistically with Perky Plus

DIRECTIONS

1. Always pretest for colorfastness and fiber distortion in an inconspicuous area. Do not apply to color sensitive fibers, leather, satin, silk, suede, velvet, non-colorfast wool, or any fabric that can be damaged by water based solutions. Do not use on acetate as fabric will dissolve on contact.
2. Remove as much of the spilled material as possible prior to solution application. If particle or powder spill, dry vacuum. If liquid spill, blot with colorfast, absorbent towel. If sticky material, use spotting spatula or dull knife to remove as much of the material as possible.
3. Apply a small amount of spotting solution to towel and blot the stain. Agitate into spot with spotting spatula, tamp area with spotting brush, or blot spot with colorfast absorbent towel. Repeat this process until the great majority of colored pigment is removed from the fabric. Apply solution lightly, directly to the remaining stain. Agitate lightly. Allow solution to dwell for 2-3 minutes.
4. Where appropriate, add a small amount of water or PERKY, agitate and extract with water. Repeat this process until stain is removed. If fabric is not water compatible, use a volatile solvent to flush LIFT INK and the stain from the fabric.
5. Note: When using multi-purpose solvents such as LIFT INK., always consider the possible negative effects on backing materials such as latex, foam cushion, and other stabilizing material.

CONTENTS

Glycol Ether DB (CAS # 112-34-5), Acetone (CAS # 67-64-1), Proprietary Non-hazardous dye dispersant, Isopropyl Alcohol (CAS # 67-63-0), Orange Oil (CAS # 5989-27-5)
