

VIVID

Stone and Tile Cleaner/Neutral Rinse

Effective and Safe for Fine Stone Surfaces

VIVID™

For Professional Cleaning of natural stone such as marble, granite, limestone, travertine, slate, sandstone, and flagstone. It is also perfect for maintenance cleaning of ceramic and porcelain tile and grout.

RTU ph 7.0 - 7.5

Contents: One U.S. Gallon (3.79 Litres)

- A perfect neutral cleaner and rinse for stone, tile, and other hard surfaces
- Contains no water conditioning or chelating agents which can harm natural stone surfaces
- Ideal for maintenance cleaning
- Can be used as prespray or to neutralize alkaline or acid prespray
- Perfect cleaner for stone countertops
- Effective and safe

DIRECTIONS

Read entire label before using. Use only as directed. Be sure surfaces to be cleaned are swept or vacuumed to remove loose debris before cleaning. Always pretest surface with cleaning solution for colorfastness prior to cleaning.

1. For normal soiling, mix two ounces of solution with gallon of warm or hot water (1:64) into a professional spray applicator. For heavy soiling, mix 4 four ounces of solution with a gallon of warm or hot water (1:32) into a professional spray applicator. For application through a Hydroforce Inline Injection Sprayer, mix 1 quart of solution with a gallon of water in sprayer bottle. Use normal tip for application.

2. Apply mixed solution with sprayer evenly and liberally across surface to be cleaned. If preferred, you can apply mixed solution with a damp mop, sponge, or other appropriate professional equipment. If using a mop for solution application and surface cleaning, change your mop water often to make sure that soil is not redeposited.

3. For best results, agitate and extract cleaning solution using warm or hot water and a rotary agitation surface cleaner such as a Hydroforce SX-12 or Hydroforce SX-7. On sensitive surfaces such as soft marble, make sure the floor has been thoroughly vacuumed or swept to remove pebbles, sand or other abrasive material prior to cleaning. For especially sensitive finishes, use the Hydroforce Gekko tool with brush head instead for extraction, or simply mop to rinse with clean warm or hot water.

4. Accelerate drying with airmover like the Hydroforce Air King or OmniPro Omnidry 33.

5. To protect stone surfaces from future stains and spills, con-

sider application of Spinergy Solidrock Premium Stone and Grout Sealer, or Spinergy Duraprotect Impregnating Solvent Stone and Grout Sealer if needed.

For use as a neutral cleaning rinse: Dilute 1 oz./gallon with hot water for portable units. Mix concentrate in a truckmount unit at one quart per 5 gallons of water. Meter as usual. Damp Mopping: One half oz./gallon hot water for routine/daily cleaning. Automatic Scrubbing machines One half oz./gal for routine or daily cleaning.

CONTAINS

Water (CAS # 7732-18-5), Proprietary surfactant blend, Isopropyl Alcohol (CAS # 67-63-0).

INSTRUCCIONES

Lea toda la etiqueta antes de usarse. Use solo como se indica. Asegurese que el area que se va a limpiar este barrida o aspirada. Haga una prueba preliminar de la compatibilidad de este producto, en un area poco visible.

1-Para manchas normales mescle 2oz de solucion con un galon de agua caliente en un rociador profesional. Para manchas dificiles mescle 4 oz de solucion con un galon de agua caliente en un rociador profesional. Para la aplicacion con un rociador de Hydroforce Inline Injection Sprayer, mescle 1 cuarto de solucion con un galon de agua en la botella. Use las mismas indicaciones.

2-Aplique la solucion mezclada con un rociador en toda la superficie, de preferencia usando un trapeador, esponja u otro equipo especial. Si usan un trapeador para aplicar la solucion de preferencia cambie el agua constantemente.

3-Para mejores resultados use una maquina rotatoria como la Hydroforce SX 12 o Hydroforce SX-7. En areas sensibles como el marmol. Asegurese que el area a limpiar este barrida o aspirada. Para terminados sensibles use Hydroforce Gekko con cabeza de cepillo en vez de una extraccion o un trapeador para enjuagar con agua limpia y caliente.

4-Acelere el secado con una maquina Hydroforce Air King o Omnipro Omnidry 33

5-Para proteger las superficies de piedra de futuras manchas, considere la aplicacion de Spinergy Solidrock Premium Stone and Grout Sealer, o Spinergy Duraprotect Impregnating Solvent Stone and Grout Sealer si lo necesita.

Para uso como un limpiador y enjuagador neutral: Diluya 1oz de galon con agua caliente para unidades portables. Mescle concentrado en una truck mount a un cuarto por 5 galones de agua. Para trapear: mitad de onza/gallon de agua caliente para la rutina o limpieza diaria. Para maquinas automaticas de tallado, una mitad onza/gallon para la rutina o limpieza diaria.
