CST04GL

DIRECTIONS FOR USE:

Universal Precautions

1. Always pretest for colorfastness and appearance change in an inconspicuous area of the surface you are going to clean prior to application.

Stone Floors

1. For normal soiling, mix one part solution with four parts water (for best results, mix with soft water). For heavy soiling, mix one part solution with two parts water (for best results, mix with soft water).

REGENERATE

Spinerge Regenerate is the ideal periodic maintenance product for cleaning everyday messes and spills while simultaneously refreshing, revitalizing and rejuvenating the fine finish, spill repellency, and appearance of your stone surface investment. Formulated specifically for cleaning stone surfaces, Spinerge Regenerate does not contain harmful mineral dissolving agents contained in most surface cleaners. It has a safe, gentle formula for your fine stone, while still tackling common everyday soil and grime that can build up from normal usage. The built-in sealer refreshes the finish of your stone investment. This product can be safely and effectively used on stone floors, granite countertops and virtually any fine stone surface, including marble, limestone, slate, terrazzo, travertine, and sandstone. It can also effectively be used on ceramic and porcelain tile surfaces.

losses or damages are claimed. Before using, the user shall determine the suitability of this product for its intended use, and user assumes all risk and liability whatsoever in connection therewith. Go to www.bridgepoint.com/msds for additional safety, regulatory and liability information.

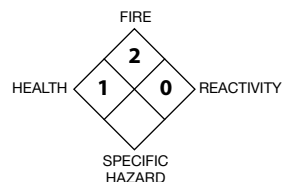

DIRECTIONS FOR USE:

Universal Precautions

1. Always pretest for colorfastness and appearance change in an inconspicuous area of the surface you are going to clean prior to application.

Stone Floors

1. For normal soiling, mix one part solution with four parts water (for best results, mix with soft water). For heavy soiling, mix one part solution with two parts water (for best results, mix with soft water).

2. Apply an even, light mist using overlapping strokes. Use electric, battery, or pump up sprayer.

3. For best results and finish rejuvenation, allow mixed solution to dwell on surface for 1-2 minutes before wiping.

4. Wipe with clean, dry, absorbent cloth or towel. There is no need to rinse.

5. Repeat if necessary on heavily soiled areas.

6. If repellency and finish are not restored using Spinerge Regenerate, it may be time to re-apply a sealant. For best results, use Solidrock Premium Stone, Tile, & Grout Sealer or Duraprotect Impregnating Solvent Stone & Grout Sealer (After complete drying).

Countertops, Walls, Mantles, Vertical Surfaces

1. For normal soiling, mix one part solution with two parts water. For heavy soiling, use product straight.

2. Apply an even, light mist using overlapping strokes. Use electric, battery, or pump up sprayer.

3. For best results, allow mixed solution to dwell on surface for 1-2 minutes.

4. Wipe with clean, dry, absorbent cloth or towel. There is no need to rinse.

5. Repeat if necessary on heavily soiled areas.

6. If finish and repellency is not restored using Spinerge Regenerate, it may be time to re-apply a sealant. For best results, use Solidrock Premium Stone, Tile, & Grout Sealer or Duraprotect Impregnating Solvent Stone & Grout Sealer (After complete drying).

CONTAINS

Deionized water (C.A.S. 7732-18-5), Non-ionic surfactant, proprietary fluorochemical, Isopropyl alcohol (CAS# 67-63-0),
