

zerorez®

Finishing Spray

RTU pH: 3.5

Contents: 32 oz. (0.94 Litres)

user shall determine the suitability of this product for the intended use, and user assumes all risk and liability whatsoever in connection therewith. The manufacturer and seller make no representation or warranty, including merchantability or any other kind, expressed or implied. The foregoing may not be altered except by written agreement by officers of the manufacturer.

IMPORTANT NOTICE TO PURCHASER: The manufacturer and seller warrant that the chemical contained here-in conforms to its standard specifications. Seller's and manufacturer's liability for any and all losses or damages resulting from any cause whatsoever shall in no event exceed the purchase price of this product, with respect to which losses or damages are claimed. Before using,

- The encapsulating polymer additive in Finishing Spray will virtually eliminate wicking of soil or spills after effective stain removal techniques have been thoroughly completed.
- The encapsulating polymer additive will also neutralize any resoiling residue left from professional strength stain removal products.
- The lightly acidic pH neutralizes any alkaline residues from professional strength stain removal products. It also protects against browning and yellowing.

DIRECTIONS

For post treatment of Zerorez® Spotting Products.

1. Thoroughly remove stains and extract area.
2. Lightly mist area treated and brush Finishing Spray evenly into fiber.
3. Let dry naturally.
