Odor and Urine Treatment

RTU pH: 5.0

Contents: 1 US Gallon (3.79 Litres)

IMPORTANT NOTICE TO PURCHASER: The manufacturer and seller warrant that the chemical contained herein conforms to its standard specifications. Seller's and manufacturer's liability for any and all losses or damages resulting from any cause whatsoever shall in no event exceed the purchase price of this product, with respect to which losses or damages are claimed. Before using, user shall determine the suitability of this product for the intended use, and user assumes all risk and liability whatsoever in connection therewith. The manufacturer and seller make no representation or warranty, including merchantability or any other kind, expressed or implied. The foregoing may not be altered except by written agreement by officers of the manufacturer.

ODOR AND URINE TREATMENT chemically neutralizes odors from virtually any source through bonding, encapsulating and absorbing. It can be used on odors from urine, feces, vomit, skunk, pet or human body odors or decaying protein and organic matter. Odor and Urine Treatment can be used on any water safe surface. Use Odor and Urine Treatment with a FlashXtractor™ to treat severe urine contamination.

ODOR AND URINE TREATMENT contains a special polymer in the formula. It effectively cleans and treats the area without leaving a sticky residue and does not contribute to re-soiling.

DIRECTIONS:

WATER KEY

Test for colorfastness. Always apply enough to assure direct contact with odor source. In some cases this means complete saturation.

FOR TOPICAL TREATMENT:

- Mix 4-8oz Odor and Urine Treatment per gallon of B-water, depending on severity of odor
- Apply heavily to affected area (approximately 1 gallon per 250sqft)
- Agitate with zrLifter or carpet groomer and allow 5-10 minutes dwell time
- Extract as normal

FOR SUB-EXTRACTION TREATMENT:

- Thoroughly flush affected area with hot B-Water and Flash Xtractor until water runs clear
- Mix 4-8oz Odor and Urine Treatment per gallon of B-water, depending on severity of odor
- Apply heavily to affected area as well as immediate area approximately 6" – 9" beyond visible spot
- Allow 5-10 minutes dwell time
- Extract thoroughly with Flash Xtractor. May choose to flush with hot B-Water if needed
